POLITICAL ACTIVITY

Reference is made to the notice regarding Personnel Circular No. 84, dated January 16, 1940, dealing with political activity, which appeared on page 40 of Service and Regulatory Announcements for March 1940, and a supplementary announcement which appeared on page 88 of Service and Regulatory Announcements for August 1940.

The Civil Service Commission has issued under date of September 18, 1940, an additional circular entitled, "Political Activity and Political Assessments of Persons Employed by State and Local Agencies in Connection with Activities Financed in Whole or in Part by Loans or Grants Made by the United States or by any Federal Agency." A copy of this circular has been sent to each field station of the Bureau where it will be available to any employee who desires to refer to it. The circular was released on Sunday, September 22, 1940, for publication in the press.

GIFTS TO OFFICIALS PROHIBITED

The attention of all employees is called to Department regulation 1543, prohibiting contributions or presents to official superiors. The regulation is as follows:

"No employee in the Department shall at any time solicit contributions from other employees in the Government service for a gift or present to anyone in a superior position; nor shall any such official or clerical superior receive any gift or present offered or presented to him as a contribution from persons in Government employ receiving a less salary than himself; nor shall any officer or clerk make any donation as a gift or present to any official superior."

This regulation is based on Section 1784 of the Revised Statutes (5 U. S. C. 113), which provides:

"No officer, clerk, or employee in the United States Government employ shall at any time solicit contributions from other officers, clerks, or employees in the Government service for a gift or present to those in a superior official position; nor shall any such officials or clerical supervisors receive any gift or present offered or presented to them as a contribution from persons in Government employ receiving a less salary than themselves; nor shall any officer or clerk make any donation as a gift or present to any official superior. Every person who violates this section shall be summarily discharged from the Government employ."

A few instances of violations of this provision have been reported recently in the Department. It seems probable that many employees are not fully aware of the wide scope of this prohibition and the severe and mandatory penalty provided for its violation.
